

# Curriculum Development Course

*Committed to Medical Education Excellence*

The Medical Education Simulation Center is pleased to offer the Curriculum Development Course. This course focuses on curriculum development in general and how to integrate simulation course curriculum into a development model. Whether you have an established curriculum or have a good idea for curriculum, this course is for you. You will learn key factors to curriculum design, discover the ADDIE instructional system design, and discuss specific simulation curriculum and scenario design.

## **Target Audience**

Simulation managers, operations managers, simulation specialists, simulation educators

**Objective:** By the end of this course participants will

- Identify the key factors in curriculum development
- Apply facets of cognitive load when building curriculum
- Identify Instructional System Design
- Identify ADDIE
- Be able to apply and integrate knowledge learned to develop curriculum/scenario

## **Course Fees and Information**

- One Day Event
- \$1300.00 UC Irvine Affiliated
- \$1705.00 Non-UC Irvine Affiliated
- Breakfast and lunch provided
- There will be ample time for other discussion with staff

## **Course Date**

**TBD (contact center)**

**Space is limited**

For additional information, please contact us at (949) 824-8835 or [medsim@uci.edu](mailto:medsim@uci.edu)

## Sample Agenda

Welcome
Overview
Basic Assumption
Why Simulate?
Simulation in Medicine
Types of Simulation
Cognitive Load
Curriculum Development
